

### Forsee Power presents its Life range in Europe at Medical Battery Conference.

Life batteries, the Smart Life range of Forsee Power dedicated to medical applications.

19 - 20 November, 2018 at "Hotel Marriott Düsseldorf Seestern" in Düsseldorf

**Paris, 19 November, 2018** – The Forsee Power Group, the French expert in smart battery systems for electromobility and portable applications, will present during the second edition of the Battery Medical Conference, its Life range composed of three batteries: Life 46, Life 72 and Life 92.

An established name in the development of custom batteries for the electromobility, medical, tooling and home automation markets, Forsee Power's Smart Life division recently released a new line of standard batteries. The range is designed for medical equipment such as portable oxygen concentrators (POC) and robotics equipment.

Developed in just six months by the Group's French-Chinese teams, the 11.25V - Life 72 - and 14.8V - Life 46 and Life 92 – solutions have merged to meet customer demands for competitively priced products and very short delivery lead times with these specific voltages.

*« Medical Battery Conference is the unique opportunity to present our innovative solutions to mobile medical devices manufacturers. Our teams of Project Managers, Electronics, Thermal and Mechanical Engineers are working on developing reliable products that meet the needs of portability and autonomy »* explains Frédéric Baudrier, Director of Smart Life division at Forsee Power.

All technological innovations will be exposed, with the presence of large private and public companies, start-ups and investors interested in this growing sector.

#### About Forsee Power

Forsee Power is an industrial Group specializing in smart battery systems for electric transport (road, rail, marine) as well as portable and mobile equipment (scooter, medtech, robotics).

As a major commercial and industrial player in Europe, China and North America, the Group designs, assembles and supplies energy management systems based on the most robust cells on the market as well as provides installation, commissioning and on-site or remote maintenance. With its modular solutions, Forsee Power guarantees that customers buying its batteries enjoy security, energy efficiency, thermal management, long-term reliability and long working life.

The Group also offers financing solutions (battery rental) through its participation in NEEoT Capital and second life solutions for transport batteries.

In August 2018, the Group opened a new industrial site in Poitiers, France. This new site will enable Forsee Power to produce 2,500 bus batteries per year in 2019 and will employ over 300 people by 2021.
