

FORSEE POWER presents the composition of its Board of Directors

The Board has parity representation and is composed of a majority of independent members, it will support the Company in its future development

Paris, December 20, 2021 – 5:45 pm CET – Forsee Power (the “**Company**”), an expert in smart battery systems for sustainable electromobility, presents the composition of its Board of Directors.

One month after the success of its IPO on Euronext Paris, Forsee Power continues to structure its Corporate Social Responsibility (CSR) approach with a Board of Directors composed of thirteen directors, including six women and seven independent members. In this way, Forsee Power is already meeting its goal of equal governance, which was announced for 2025 in its registration document¹.

With a strong international dimension and solid experience in the field of sustainable mobility, the Board will support the Company in the sustained and steady growth of its revenues, which will enable it to achieve its ambitious financial objectives.

About Forsee Power

Forsee Power is a French industrial group specializing in smart battery systems for sustainable electric transport (light vehicles, trucks, buses, trains and ships). A major operator in Europe, Asia and North America, the Group designs, assembles, and supplies energy management systems based on cells that are among the most robust in the market and provides installation, commissioning and maintenance on site and remotely. Forsee Power also offers financing solutions (battery leasing) and second-life solutions for transport batteries. The Group recorded revenue from sales of EUR 62 million in 2020 and has more than 500 employees. For more information: www.forseepower.com | @ForseePower
