

Julien Coursoux joins Forsee Power as Purchasing & Supply Chain Director

He joins the Group's Executive Committee and is based in Paris, France

Paris, March 5, 2018 - Forsee Power, an expert in smart battery systems for urban mobility and portable equipment, announces the appointment of Julien Coursoux, 46, as Purchasing & Supply Chain Director. Reporting to Christophe Gurtner, CEO of Forsee Power, Julien Coursoux joins the Executive Committee of the company based in Paris, France, from March 5, 2018.

Julien Coursoux will be responsible for the Purchasing & Supply Chain teams based in France, Poland and China. His mission will be to define an international purchasing strategy, set up partnerships with the Group's major suppliers and organize the supply chain.

"It gives me great pride to join the French group Forsee Power, a key player in the energy transition, because of its strong international dimension but also its high growth potential. While Forsee Power is gaining momentum in the heavy transport market such as the bus and is starting the industrialization of its new batteries for transport, the purchasing function will be at the heart of the Group's transformation" enthuses Julien Coursoux.

Julien Coursoux holds an Executive Master in Global Sourcing from HEC (Purchasing and Supply Chain) as well as a Master's Degree in Industrial Engineering (INSA Toulouse). Before joining Forsee Power he was Purchasing Director at Assa Abloy France (Fichet and Vachette brands). He also held similar positions in international industrial groups such as Schneider Electric, Vinci and Onduline.

About Forsee Power

Forsee Power is an industrial Group specializing in smart battery systems for electric transport (Smart Transport), portable and mobile equipment (Smart Life) and energy storage markets (Smart Energy).

As a major commercial and industrial player in Europe, China and North America, the Group designs, assembles and supplies energy management systems based on the most robust cells on the market as well as provides installation, commissioning and on-site or remote maintenance. With its modular solutions, Forsee Power guarantees that customers buying its batteries enjoy security, energy efficiency, thermal management, long-term reliability and long working life. The Group also offers financing solutions (battery rental) through its participation in NEoT Capital and second life solutions for transport batteries.

Producing innovative products with high added value that embody its scientific and industrial strength, Forsee Power is an agile and reliable partner to the energy transition. The Group has already invested over €110 million in R&D and hosts a team of 60+ engineers benefitting from expertise all along the value chain.
